

Spring in the Garden: April

The focus for April will be harvesting cool weather veggies and planting warm weather crops! As often as possible, we will do tastings in the garden. All summer crops should be planted by May, weather permitting. Please note, we are in schools from 9-11 or 1-2 as indicated by schedule for 40 minute classes.

Monday, April 19	Tuesday, April 20	Wednesday, April 21	Thursday, April 22	Friday, April 23
